

A close-up photograph of a complex, dark-colored metal casting, likely an engine component. The casting features several circular holes and intricate shapes. A QR code is visible on one of the flat surfaces, and the text 'PRYOR MARKING TECHNOLOGY' is printed in a bold, sans-serif font on another surface. The lighting is dramatic, highlighting the metallic texture and the precision of the manufacturing process.

Manual Marking

World leading solutions for
industrial marking, product
identification and traceability

PRYOR

Stencils

Single plate and Interlocking styles

- Separate Plate and Interlocking stencil available
- Number and letter sets
- International Shipping Symbols
- Make to order custom designs
- Easy to clean and solvent resistant
- Reusable

Separate Plate Stencils

Manufactured from Zinc plate, available in basic Letter Sets A-Z, Number Sets 0-9 and International Shipping Symbols (details on following page)

Interlocking Stencils

Simply slide the plates together to create a unique legend which can be positioned to produce clear uniform signage.

Character height up to size 76.2mm (3") are manufactured in Brass, all sizes above this are manufactured in Zinc.

Custom Stencils

To compliment the standard Stencil range, Pryor supplies custom, made-to-order stencils including names, logos and patterns. Please contact us to discuss your requirements.

Mark your wooden shipping products as compliant with International Plant Protection Convention (IPPC) regulations.

Available as a custom stencil, manufactured to your specification
